**Sir!
Evidence-
Based
Guidelines,
Sir!**

INSTTEPP

- Use Boot Camp Translation to more effectively deploy AHRQ's Self Management Support (SMS) Toolkit across 16 primary care practices in 4 PBRNs.
 - Boot Camp Translation: patients, clinicians, and care coordinators participate in a 2-month "translation" process
 - Retreat, plus conference calls: medical expert, materials, questions, discussion
- Assess the impact of the SMS Toolkit on the practice staff and patients engaged in chronic care management
- Identify factors related to successful implementation
